

PASMA

PUBLIC AGENCY SAFETY MANAGEMENT ASSOCIATION

MEETING ANNOUNCEMENT

**Tuesday, April 13, 2010
11:00am – 2:00pm**

**Municipal Pooling Authority
1911 San Miguel Drive, Suite #100
Walnut Creek CA 94596**

FEATURE PRESENTATION:

**The FAST & the FURIOUS:
What your employees should know about safe driving**

By Officer Jacome, CHP

Get an overview of the highly interactive workshop developed by CHP and State Comp Insurance Fund for fleet owners, managers, and/or supervisors. Some of the workshop tools included:

- o Actions you can take to improve defensive driving habits,
- o Driver training topics you can use immediately for your in-house drivers' meetings, and
- o A model action plan.

Discover vital elements on how to improve employee defensive driving habits. Know the benefits and drawbacks of certain employer actions plus their impact on driver training strategies. Determine:

- o If training is needed,
- o What are the benefits for training,
- o Topics for your defensive driver training, and
- o How often do your drivers need training.

Develop cost-effective, high-quality, in-house programs. Define the tasks, materials, funds, personnel, and space requirements so you can easily implement the following:

- o "Commentary driving" programs,
- o Safety campaigns, and
- o Driver safety review committees.

Deploy the strategies learned in this workshop to quickly draft an action plan to improve the

defensive driving habits of your employees. Use the tools introduced to improve your existing defensive driving plan and safety program. The methods presented will also assist you to determine the effectiveness of any contracted fleet services management.
