SAFETY CENTER HOLDS IT'S ANNUAL EXCELLENCE IN SAFETY AWARDS LUNCHEON AT THE 2010 CALIFORNIA ASSOCIATION OF SAFETY SERVICES CONFERENCE

Safety Center Incorporated's Annual Excellence in Safety Awards Luncheon was hosted by The California Association of Safety Services (CASS) "A Partnership For Safety Annual Conference" on April 8, 2010 at the Holiday Inn – Sacramento.

Each year, Safety Center Incorporated awards outstanding individuals and organizations that exemplify dedication to safety. This year's awards are:

The Chairman's Award of Merit - awarded to organizations that have shown vital efforts in promoting a corporate culture of workplace safety through innovative programs.

This year's award was presented by Safety Center's Board Chair, David Becker to Santa Clara Valley Water District. Paul Burnett accepted the award for his organization. Santa Clara Valley Water District has worked hard to become a recognized leader in green business and environmental stewardship.

David Becker, Safety Center Board Chair with Paul Burnett.

The District has also focused on performance excellence and continual improvement. Efforts have improved engineering controls throughout the District, creating significant increases in safety training and communications. In addition, they have established a vigorous management system framework that has culminated in continuous reductions in worker injury and severity rates.

The Safety Professional of the Year Award - awarded to individuals with technical knowledge and leadership skills that have elevated their organization's safety program through quality and performance, the development of innovative safety programs and/or superior communication skills that span from the field to corporate management.

Mike Landy, Safety Manager for County of Sacramento Department of Water Resources was presented with this year's Safety Professional of the Year Award. Mike's safety professional role extends far beyond his employment with the County of Sacramento. He is also an active member of Public Agency Safety Management Association (PASMA) and the Sacramento Regional Safety Forum (SRSF). Through his dedication to safety, he has not only improved his own organization's safety program, but has helped many others to develop and maintain theirs.

Liz McClatchy, President of Safety Center with Mike Landy.

The Safetyville USA Citizen of the Year Award - awarded to individuals whose dedication and achievements have promoted children's safety & health training. Jo-Ann Foley from Sacramento City College received this year's award. Jo-Ann is not only a role-model and inspiration to her Health, Safety and Nutrition students at Sacramento City College, her efforts in encouraging and

supporting her students to participate in Safetyville USA's volunteer program has positively impacted children in our health and safety programs for years.

It is our hope that when a leader is recognized for efforts made in the promotion of safety, the philosophy will transcend their organization to others around them.

Liz McClatchy, President of Safety Center with Jo-Ann Foley.

**CONGRATULATIONS
TO ALL!**

Sacramento Has a New Safety Forum

Safety Center Incorporated welcomes a new organization to our family, the Sacramento Regional Safety Forum (SRSF). The SRSF is designed to assist those who have the responsibility for the health, safety and wellbeing of their workplace and workforce.

The Sacramento Regional Safety Forum is a morning meeting that is filled with fellow safety people providing a great opportunity for networking and learning. Participants will be able to take part in an interactive, informative forum with subject experts, workers and employers to hear or share each other's "real-world" experiences.

Join us for a greater understanding of safety & health in the workplace, how to develop and maintain it from those who know it, support from those who have been through it and receive the resources available to maintain it.

Forum meetings are held the first Thursday of each month and include a continental breakfast, speaker presentation, Q & A time and/or topic break-out sessions, door prizes and resource materials.

May's Meeting Topic: Behavioral Based Safety
Derrick Jarvis of E & J Gallo

Date: May 6, 2010
Time: 7:30 am – 9:30 am
Location: 3909 Bradshaw Road., Sacramento
